## Cable Filler Innovators

Fabpro Polymers offers a full line of polypropylene cable fillers for a wide range of cable designs and applications. Fabpro manufactures fillers in monofilament and slit film construction.

**CableMax™ MONOFILAMENT SPIRAL WRAP** Filler is designed with parallel untwisted filaments bound together with a spiral wrap.

**CableMax™ SLIT FILM** Filler has mechanically fibrillated construction which can be packaged twisted or untwisted.

Increasing length to large diameter cable filler packages can improve throughput – Ask about BIGFOOT today.

- All standard spool CableMax™ footage is guaranteed
- Excellent fill rates and consistency of fiber
- Non-hydroscopic filler
- RoHS compliant
- No GADSL prohibited or declarable materials
- Excellent fill-to-cost ratio
- Custom sizes range in diameter from .07” to .30”
- BIGFOOT available up to 90lbs & extra long lengths
- Paper center core, or coreless spools
- Twisted or untwisted fillers
- Coreless is center-pull
- Color variations available
- Tenacity enhancement options
- Fibrillation pattern options
- Foamed and unfoamed options

All Fillers are available in **FLAME RETARDANT** forms that meet **ASTM 2863** specifications.
